GENERAL NEWS.

SPECIAL DISPATCHES TO THE OREGONIAN.

The Dreary Vote.

ALBANY, June 17.—For Conkling's successor the vote was as follows: Jacobs 6, Conkling 27, Wheeler [illegible], Lapham 15, Bradley 1, [illegible] 5, [illegible], Crowley 1.

For Platt's successor: Depew 79, Kernan 18, Platt [illegible], Cornell 16, Crowley 5, Lapham 1, Wheeler [illegible].

Depew Openly Denounced.

ALBANY, June 17.—In joint convention [illegible] denounced Depew as the head [illegible] of lobbyists and Barber and Edwards as his lieutenants. He said Barber's room had long been the headquarters where legislation is bought and sold, and where legislators gamble with lobbyists and claim agents, and where cards are a veil to cover gauzed bribery. He could corroborate this statement by witnesses. Barber & [illegible] were trying to make their man a United States senator.

Grant Gives his Views on Garfield.

NEW YORK, June 17.—A Herald reporter at Pittsburg, Pa., interviewed Grant, who said: Garfield is a man without backbone, a man of fine ability but lacking stamina. He wants to please everybody, and is afraid of incurring the enmity of all the men who are around him. This is why he threw a sop to Conkling and Platt. Robertson's appointment I am sure was settled before March 15, yes, before the Chicago convention. Robertson knew that if any nomination could be prevented he would be collector of New York.

I do not suppose he had a direct pledge. The contract was with Blaine, and Blaine is keen and wary. Robertson, however, knew he was to get the appointment. Blaine failed and Garfield was nominated and pledged to Robertson, who stood with Garfield. He had to appoint him yet he was afraid to say so. Why did not he say openly, "I am going to appoint Robertson." I do not think Blaine has personally said anything to Garfield in the matter. He wants to be in a position to say that since he has been secretary of state he has never interfered with any appointments and things that he can say that he has not said anything, but still through him Robertson's nomination was dictated and through him insisted upon.

The reporter asked, "Are you going to New York to take part in the fight?"

Grant—"No, I have business there and I am out of politics except as a citizen who exercises the right to vote and think as he pleases."

The Fasting Fool.

CHICAGO, June 17.—Griscom began the twenty-first day of his fast at noon. Weight 172 pounds. He claims that he is in first class condition, but he looks pale and weak. Physicians consider his condition remarkably good. Yesterday's heat weakened him, but the more comfortable temperature to-day is favorable.

Fatal Cases of Sunstroke.

NEW ORLEANS, June 17.—The weather has been very hot for the past three days. There were 12 sunstrokes, 7 fatal.

Celebrating the Battle of Bunker Hill.

BOSTON, June 17.—The 106th anniversary of the battle of Bunker Hill has caused patriotic enthusiasm here and at Charleston, general holiday parades, &c., taking the place of business. Festivities, like the Mardi Gras, attracted nearly 100,000 people early this morning. A monster civic and military parade was succeeded by banquets. [illegible] Prescott's monument was dedicated.

Personal.

NEW YORK, June 17.—General and Mrs. Grant arrived here to-day.

Not in Favor of War.

The presidents of the N. Y. Central, Erie, B. & O. and Pennsylvania railroads agreed at a meeting to-day to in no wise countenance or participate in the cuts made by western connections and instructs Commissioner Fink to so notify them and adopt such measures as are necessary to maintain rates.

Annual Dinner.

[illegible], June 17.—The sons of Maine met in their annual session at the Palmer house last night, two hundred covers being spread. The occasion was especially notable from the presence of some twenty-five [illegible] gentlemen who are still residents of the Pine Tree state.

Railroad war Brewing.

Freight rates show general demoralization and contracts were made by nearly every road to-day for [illegible] to New York at 15 cts. It looks as though all railroads were about to begin competition with the [illegible] which would be forerunner of a general railroad war.

Death of a Politician.

Joseph H. Smith, a prominent lawyer and politician of this city since 1868, died this morning of heart disease. He came here from Maine where his father was once governor of the state. Mr. Smith was [illegible] Blaine's first opponent for member of congress [illegible].

Fire.

A fire this afternoon destroyed the great furniture factory of [illegible], Hanson Green street, throwing [illegible] out of employment and causing a total loss of [illegible], insurance $27,000.

Oil Fire.

BRADFORD, June 17.—25,000 barrels of oil were struck by lightning last night. The fire is still burning but is believed to be under control.

Cotton Mill Burned.

RALEIGH, N. C., June 17.—[illegible] mills, in [illegible], the property of the Falls of the Neuse Manufacturing Co., burned to-day. The mills contained 1000 spindles and 168 looms and employed 207 operatives. The cotton, boiler and store houses, with house for operatives were saved. The fire was caused by the explosion of a lamp. Loss $200,000, insurance $70,000.

Chapter of Drownings.

CINCINNATI, June 17.—Eight cases of drowning occurred here to-day. Six happened at once in the Ohio river in the western part of the city. The men at work at Fleming's coal landing were coming ashore in a skiff. Eight had got into the boat when two more jumped in and threw the whole party into the water. George Kilkopf, 9 years old, of Louisville, here on a visit, was drowned while bathing in Mill creek. Felix Devine, aged 9 years old, was drowned while bathing in the Ohio river near Pendleton.

Hanged.

COLORADO SPRINGS, June 17.—Wm. H. Salisbury alias A. H. Gatty, was to-day hanged for the murder of constable Perkins at Buena Vista. He declared his innocence from the scaffold. When the trap sprung the rope broke, and although his neck was broken by the fall he was again pulled up.

Murder.

DENVER, June 17.—A News special says John O'Hara deliberately shot a Swede named Isaacson at Park city. The victim will die. The murderer escaped.

Road Agents Captured.

ALBUQUERQUE, Tex., June 17.—Chas. Allison, Lewis Perkins and Henry Walls, the notorious road agents were inveigled into a livery stable to-day, where they were immediately covered by twenty revolvers and captured by men who were secreted in the stable for that purpose. There is a reward of $1000 for Allison, and $200 each for the others.

Gould's Operations in Texas.

DALLAS, Texas, June 17.—It is understood that Gould's terminal point on the coast will be Sabine pass. It has been stated that Gould has bought the [illegible] road from Sabine pass northward fifty miles. It will be pushed forward to Mineola as rapidly as possible. This will force the Texas Trunk railroad to a parallel line from Palestine to the pass.

Stocks in New York.

NEW YORK, June 17.—It is generally believed that stocks have been depressed on Wall street to enable insiders to buy at low figures and profit by the advance. The passage in the assembly of the unpopular brokers' tax bill, aided materially in the depression. It taxes each trade instead of the monthly total. The Trunk line troubles also had a bad influence. There was soon evident, however, a strong sustaining influence, and the market became steadily strong, especially when it was reported that the Trunk lines had adjusted difficulties. There was a good demand for coupon fives at full prices upon news that the administration would not favor refunding any further. There have been large transfers of elevated railroad stocks.

Suicides.

ELIZABETH, N. J., June 17.—Fannie Walker, a dressmaker, was shot, not fatally, by Merton Magill, a lunatic. Magill asked the woman to marry him. She refused and he immediately fired twice, then killed himself.

New Military Order.

The secretary of war has ordered that the whole number of enlisted men of all grades and descriptions allowed for clerical duty in the army shall be 15 sergeants, 21 corporals, 107 privates and 16 topographical assistants. The general of the army will determine their distribution. In addition, commanding generals of divisions and departments, the commanding officer of the district of New Mexico and superintendents of recruiting service may if necessary use enlisted men from the troops under their command as messengers, not to exceed five for each division, department and district named and one to each superintendent.

The Trans-Atlantic Rush.

NEW YORK, June 17.—Over 625 saloon passengers go out to Europe to-morrow. The rush is so great that the officers have given up their rooms, and some passengers pay full fare for special steerage accommodations.

Brewers' Strike.

The brewers on a strike still hold out and talk confidently of holding out all summer. It was said that a great labor movement would soon follow the strike.

Respite.

DENVER, June 17.—Gilbert and Rosecrans, who were sentenced to be hanged at Leadville to-morrow, have both been respited to July [illegible].

Indians Excited.

FORT SMITH, Ark., June 17.—The Choctaws are excited because whites living in the Choctaw nation refuse to pay the tax levied by permit. Two thousand men are armed and organized to expel the whites who refuse to pay the tax, burn their houses, and make it generally unpleasant.

Heavy Loss.

NEW YORK, June 17.—A. C. Lawrence lost some [illegible] Cedar Rapids & Northern and other [illegible] bonds on Broadway to-day, he believes through a hole in his pocket. Their value is $100,000.

SOUTH AMERICA.

Discussion of Politics Forbidden.

MONTEVIDEO, May 20, via London, June 17.—A great sensation was caused here by the issue of a decree forbidding newspapers, on pain of a fine of 2000 pesos to discuss politics or create obstacles for the government. Several deputies and senators have resigned. Legations are crowded with journalists hiding from authorities. Two papers have suspended publication and the rest avoid politics. The printing offices of three opposition papers have been attacked, one compositor was killed and three injured.

THE PACIFIC RAILROADS.

Letter by Commissioner French to President Stanford.

NEW YORK, June 17.—The following has been addressed by [illegible] French, commissioner of railroads, to Leland Stanford, president of the Central Pacific R. R. Co.:

DEPARTMENT INTERIOR,
OFFICE COMMISSIONER RAILROADS,
SAN FRANCISCO, June 11.

SIR—The results of my examination of the books and accounts of your company, and also my present view of matters bearing on payment to the U. S. of principal and interest of subsidy bonds, and questions collateral thereto may not be uninteresting to you at this time. First, however, let me note that many of the conditions which existed during the years immediately subsequent to 1878, no longer interpose to complicate matters. California is gradually emerging from business stagnation, labor is finding employment at better prices, state politics are reaching a more settled condition, and the near future is full of promise, not only to the railroads but to the producing and other interests of the Pacific slope, generally as evidenced by the largely increased business of your company during eleven months ending May 31, and which I find as follows: Earnings, eleven months, 1881 $21,[illegible]; earnings, eleven months, 1880, $16,[illegible]; increase, $4,[illegible]; operating expenses and rentals $11,041,708; [illegible]; surplus earnings, $9,[illegible]; [illegible]. Let me further note that I am more than ever impressed with the expediency, not to say necessity of consolidation of your lines with those of the Union Pacific, so as to fulfill or carry out the original intention of congress as set forth in charter acts, such consolidation being the only means to obviate many serious difficulties present and prospective, which will doubtless involve other companies and interests, and impede in some measure the prosperity of the whole country.

After careful consideration, E. H. Miller, Jr., secretary of your company, and myself have arrived at a satisfactory conclusion for a basis, for pro-rating business on subsidized and unsubsidized lines of railroad, operated by your company hereafter. While the settlement of 1879 was made upon the nearest approximation to that which was believed to be a fair and equitable settlement, owing to changing circumstances and conditions which are liable to occur from time to time, another settlement must be made. In 1880 the total amount required from your company under the law will be over $1,000,000, of which $800,000 has been already paid by transportation. This sum, and a much larger sum probably for 1881, can, I am satisfied, be readily paid by your company without in any way preventing or interfering with the payment of dividends of at least six per cent per annum hereafter. The uncertainty which attaches to ascertainment of the amount of payment to the government annually under existing law, and the vulnerability incident to any company subject to special legislation by congress, indicate that at an early day all subsidized companies should negotiate loans sufficient on the basis of present value to discharge their debts to the United States, when the same shall become due, and to place a fund beyond peradventure, the amount might be deposited in the treasury of the United States, and interest allowed at such rate as agreed upon. Since my last interview with you, I have read the lease under which your company is operating the Southern Pacific railroad. The Southern Pacific company erroneously reported that this lease was terminable when eastern connections were made. Your own company failed to report the terms of the lease at all, and no copy had been forwarded to me as requested. Now upon reading the lease it appears that it has nearly four years yet to run, which fact puts an entirely different phase upon the main question at issue in regard to the Southern Pacific—that of probable cancellation of this lease whenever the road should begin large increase of earnings. I have no doubt but that the net increase of earnings of the Southern Pacific in the next four years will exceed any losses in the past four years, the gross earnings for 1881 being nearly $[illegible], with considerable net earnings, being about to [illegible] operating expenses and rental, so that the lease will eventually result in large gain rather than any loss to your company. For these and other reasons I shall deem it my duty, at an early day, to communicate with the attorney general of the United States with a view to discontinuance of proceedings instituted against your company in the circuit court of the United States for the southern district of New York.

Very respectfully,
THEO. FRENCH,
Commissioner.

Hon. Leland Stanford, President Central Pacific Railroad San Francisco, Cal.

The Unhappy Czar.

LONDON, June 17.—Advices from St. Petersburg say that the czar still keeps himself a close prisoner at Gatschina. Sappers and miners have dug up every foot of the ground within a mile of the palace in search of mines. The water used in the palace is brought from St. Petersburg. It has been rumored that the nihilists have tampered with the supply at Gatschina. The troops employed in guarding the palace are changed every day. The czar and family left for Peterhof to-day. The commander [illegible] of the guardship [illegible] lying there, have been removed and placed under police surveillance, nihilist proclamations and copies of the *Will of the People* having been found on board the vessel. Some days he shuts himself up in his cabinet and refuses to see even the members of his suite. He intended some time ago to make Kief the capital of Russia but the recent operations of the nihilists in the southwest have frightened him and moreover, although the Russian press is silent on the subject, the peasants in the Kief department threaten an agrarian war. The czarina is prostrated with nervousness. Ignatieff's attempts to stamp out nihilism are laughed at by the leaders of the movement and it is now evident that the contagion is rapidly spreading in the army, while the peasants rendered desperate by crushing burdens are no longer to be depended upon. Not long ago a few leading nobles of the moderate party waited upon the czar and urged him if he valued the safety of the empire to grant liberal concessions to the peasants and formulate a scheme of constitutional reform, but he summarily dismissed them from his presence and they were notified by the police next day that it would be wisdom on their part not to meddle with the emperor's affairs.

Nihilists Sentenced.

ST. PETERSBURG, June 17.—A recent court martial of Nihilists at Kieff sentenced two prisoners to death and the remaining eight to penal servitude or exile to Siberia. The emperor commuted the death sentences to penal servitude for life. The accused included four women.

The English Channel Tunnel—Very Satisfactory Progress.

LONDON, June 17.—Sir Edward Watkins, chairman of the Southeastern Railway Co., informed a meeting of that company that two experimental shafts for the proposed channel tunnel had been sunk on the English side and two on the French side, and that from one shaft on the English side galleries 800 or 900 yards long and 7 feet in diameter had been driven. The progress during the last week was 67 yards, which is equal to two miles yearly. They have thus solved the question of the rate of progress on the experimental gallery, and ascertained that the lower strata is impervious to water. French experiments realized exactly the same result. They had arrived, he said, at an understanding with the French Tunnel Co. that on each side of the channel a further heading of a mile should be driven. When these headings are finished, which certainly ought to be in six months, one-tenth of the question would have been dealt with and a further treaty would then probably be proposed, under which each would accomplish the remaining 9 miles on its side. In view of meeting in the channel, the 7-foot gallery ought on this system to be completed in five years.

The changes contemplated would immediately increase the public charge by £68,000 yearly, and eventually by £150,000. No minister would have been justified in proposing so large an expenditure without a thorough investigation, and he severely condemned the impatience of operators and their threats to strike.

Although many are predisposed to lung troubles from birth, yet even such may escape consumption or other pulmonary or bronchial disease, if due care and watchfulness be observed and all exciting causes are promptly treated as they arise. It is in these cases Dr. Jayne's Expectorant exercises its most beneficial effects and has produced the largest proportion of its cures. Besides promptly removing coughs and colds, which, when left to themselves, are the immediate causes of the dread development, this standard remedy always allays inflammation which may exist, and by promoting easy expectoration, cleanses the lungs of the substances which [illegible], and which rapidly destroy when suffered to remain.

My blood and kidneys are all right, and I am as active as a man of 30, although I am 72, and I have no doubt it will do as well for others of my age. It is worth the trial. (Father.)

A. McKINNIE, Manager.
Oregon, Washington Territory and Idaho.
102 FIRST STREET.

TO OUR POLICY HOLDERS AND THE GENERAL PUBLIC OF OREGON AND WASHINGTON TERRITORY:

The first consideration with applicants for life insurance is, or at least should be, SAFETY. Will the money paid out for the policy be prudently invested? Are the affairs of the Company honestly and efficiently administered? When the policy becomes a claim will it be promptly paid, and thus the object which induced the payment of the premium be fully attained? These are queries naturally suggested, and the character of the answers determines the course of the questioner and the solicitor of his company.

In this connection, the Managers of the PACIFIC MUTUAL LIFE INSURANCE COMPANY respectfully beg leave to submit the following facts and statements concerning their Company:

1. Since its organization, A. D. 1868, it has paid 567 death losses on policies amounting in the aggregate to $937,108.

2. IT HAS PAID TO POLICY HOLDERS, FOR MATURED ENDOWMENTS, DIVIDENDS, AND SURRENDER VALUES, IN ROUND NUMBERS, $1,000,000.

3. It has repeatedly been examined by SWORN EXPERTS, and most thorough and searching investigations made of its condition and business, and in EVERY CASE its solvency and trustworthiness have been demonstrated.

4. Its stockholders and directors are widely known as among the most capable business men and ablest financiers of the State of California, and the integrity of their management is unquestioned.

5. The laws of the State, including the constitutional provisions affecting corporations, are of the most rigid character, such as to make the Company one of the safest institutions of its kind.

Section 2 of Article XII. of the NEW CONSTITUTION of the State of California is as follows:

SATURDAY MORNING, JUNE 18, 1881.

THE CITY ELECTION.

The importance of the city election to be held next Monday cannot be overrated by the business men, as well as all other citizens who desire a good local government,—one in which rings and jobbers shall have no part. On one hand we find that those who make politics a sort of profession, who are office seekers at every election that occurs, or who expect to make money in every campaign by working for one side or the other; all who have jobs that they would like to get through the council, are rallying to the support of the machine ticket while the actual workingmen and the substantial business men, by a very large majority, oppose the idea of turning over the government to the control of an administration whose ideas are that every other interest should be made subservient to party supremacy and the personal profit of members of the ring. The city of Portland has had a taste of partisan government at the hands of ring masters on one or two occasions, and is not desirous of having the dose repeated. What the people want is a business-like, honest and economical administration of public affairs. They want a mayor who will devote some attention to the encouragement of the great business and commercial interests of the city, and not be constantly fixing up political or personal jobs out of which profit may flow into the pockets of the ring, the members of which want to live on the money exacted from the people by burdensome taxation. Such a mayor Mr. Thompson has made for two years past. Will Mr. Simon if elected do as well? As a politician Mr. Simon would probably be far more active in the mayoralty than would Mr. Thompson; but in point of the executive ability required in the position, there are certainly many reasons why the latter should be preferred. Those who want a man who has shown his will to serve the people rather than party, and to advance the interests of the city rather than the interests of politicians and office-seekers, will not vote for Simon in preference to Thompson. Neither republicans nor democrats will have cause to boast of any party triumph when the contest is over; but if the citizens' ticket shall be elected the people will have cause to rejoice on account of a victory of the honest-thinking, law abiding and peace-loving, over the scheming, trading and dishonest politicians who care nothing for party principle when principle is at stake, but who naturally drift into the ranks of those who buy them with promises or purchase them outright with coin.

OPPRESSED IRELAND.

The story of the riot at Clonmel, county Tipperary, Ireland, told by recent cable dispatches, furnishes an insight into the condition of that unhappy country. It shows that if the Irish had arms in their hands they would make short work of the hated British troops and constabulary. These people have been so trampled upon and goaded by the tyranny of their oppressors that at last they appear determined even in their helpless and defenceless condition, to resist to the extent of their ability with the only weapons at their command—sticks, stones and other missiles. The Clonmel riot had its origin in a very trifling circumstance, that of a policeman laying his hand on the arm of a priest, which gave rise to the impression that he had been arrested. This shows that it requires but a spark to create an explosion in any part of the disaffected territory.

The coercion act, necessary as it may have been as a matter of policy, has been practically a dead letter. It has had no effect except to exasperate and irritate the land leaguers, who stand together with extraordinary unanimity in resisting it. The landowners are being boycotted on all hands, and the government is unable to afford them relief. Most of them receive no rents at all, as the land league has forbidden payments until the coercion act is repealed. The merchants and shopkeepers are suffering heavy losses in consequence of the disturbed condition of affairs and are beseeching the authorities for relief. But how is that relief to be afforded, with the land bill hopelessly tied up in parliament and the Irish people kept in a constant state of turmoil by vain attempts to enforce an obnoxious law.

The government authorities find it exceedingly unpleasant and difficult, if not impossible, to stand up against the popular discontent and condemnation. The officers whose duty it is to enforce the law by distressing the tenants are ashamed of themselves, and do their work very reluctantly. It is not a pleasant thing for a British soldier to be pelted with mud, as a uniform so befouled is, in the eyes of the populace, but the badge of his degradation. Women and children everywhere greet the queen's emissaries with hoots and hisses, and the men are ready to strike at them from under cover whenever they can seize the opportunity. It is not surprising that there should be rumors of the resignation of Mr. Forster, the chief secretary for Ireland, as the coercion act has proved a lamentable failure. Instead of giving protection to landowners and peace to the commercial interests, it has had the very opposite effect. The landlords are in a worse condition than ever before while the tradespeople are begging to be relieved from impending ruin. The Tipperary riot may be but the prelude to an outbreak which will drench the land in blood.

A BETTER POLICY.

Washington Irving humorously tells us of a Dutchman in early colonial days, who had learned theoretically the advantages of a running jump. He ran so far before the jump was to come in that he got tired and had to sit down and rest, after which he jumped to good purpose. The Helena (Montana) *Herald* uses this story to illustrate a phase of the past management of the Northern Pacific railroad, which has often been remarked here. The early directors seem to have been so anxious about where they should come out on the Pacific and Lake Superior that they almost forgot their original purpose of building a railroad. The work of building a Chicago at the western end of Lake Superior and a San Francisco on Puget sound quite exhausted the strength and resources of the company, and it had little left with which to build a road. It was like a merchant starting business investing all his capital in advertising, and when customers came in throngs had no goods to sell.

These things have all changed, it is hoped. The company has, however, under its old policy lost much that was legitimately its own. The bother about owning and speculating in town sites has done far more harm than good to every railroad on this coast which has tried speculation therein. Most attempts of this sort have failed utterly. It is matter for congratulation that the Northern Pacific is now done with these follies and is getting down to actual business.

It is a curious fact that Russia, one of the poorest of civilized countries, makes a greater parade of wealth in one respect than any other European state. The domes of all the great churches in St. Petersburg, Moscow, and other large towns, are plated with gold nearly one-quarter of an inch thick. The new church of the Saviour, dedicated and opened in Moscow last August, represents a value of fully $15,000,000. The Isaac cathedral in St. Petersburg may safely be credited with at least thrice that amount. So strong, however, is the old Slav belief in the inviolable sanctity of "holy places" that during countless seasons of widespread and bitter distress, no attempt has ever been made to plunder the gold thus tempingly exposed.

An act passed by the Illinois legislature at its recent session, in regard to remanded cases from the supreme court, allows the plaintiff to go back with his case upon merely paying his own costs, and not, as heretofore, by paying the costs on both sides. It is believed that this law will be found beneficial to many small clients in fights with wealthy men and corporations, where the heavy costs now levied often compel clients to dismiss the case before final judgment. Under this impression as to its benefits the law is received with satisfaction by the masses of the people.

The sum which is reported to have been given by Simon to set up the little daily campaign machine organ is $600. The Sunday paper run by the hoodlums also gets a subsidy. These are the independent mouthpieces of public opinion for the ring movement.

Edward Stable of Sandy Springs, Md., is a living illustration of the tenure of office act, having held the place of postmaster of his village for 51 years. He now lives in the same house in which he was born 87 years ago. He is certainly what his name indicates.

It is singular to observe that some men on the east side are strong supporters of the citizens' movement over there, and yet are opposing in an equally earnest manner the citizens' movement here. Judge Bellinger doubtless knows some such.

People who know and realize what the difference is between a one-horse ring government and a business government of the city, are going to vote solidly for the citizens' candidates.

The fire department of the city is practically helpless for want of hose. Who are they who have been putting money into their pockets?

WASHINGTON, June 17.—For California and Northern Pacific coast region, fair weather.

CITY.

ARRESTED AND INDICTED.—Thursday night a man giving his name as Thomas Jackson was arrested near the gas works by Officer Jas. Barry, charged with having outraged the little daughter of Mr. Andrews a few days since. Jackson was conveyed to the city jail and locked up. Yesterday the grand jury of the state circuit court made an investigation of the case and returned a true bill against Jackson charging him with committing an outrage. The case will come up for trial in a few days. Jackson is about [illegible] years. He claims to be a blacksmith by occupation and says he has recently worked for the O. R. & N. Co. at the Cascades. Jackson has been previously arrested several times and fined [illegible] on a charge of drunkenness. He was not informed what he was arrested for. Ethel Andrews, the little girl on whom it is claimed the outrage was perpetrated, was brought into the presence of Jackson and identified him as the person.

WANTS OUR LUMBER.—Hon. Hunter M. Eler, U. S. consul at Guayaquil, Ecuador, who is now in the city on a visit of pleasure, purposes exporting a cargo of lumber from this port to Ecuador. Pine, cedar and redwood are the varieties most desired in that country. If lumber can be bought here at satisfactory prices, Mr. Eler will charter a vessel at San Francisco and load her at this port. Should the first venture turn out as expected, he will continue the exportation of lumber.

About fifty prizes have been donated for the occasion, which will be contested for during the day, and a grand ball will be given at Reed's Opera House in the evening. Printers and their families and friends and the public generally, are cordially invited to attend and participate in the exercises of the day.

SUBMITTED.—The case of the United States vs. Wm. Mackay, under charge of sending unlawful matter through the mails, came up before Judge Deady yesterday. The argument by the attorneys closed and the case was submitted to the jury at 9 o'clock last evening. The occasion was delightful in its social features, a literary and musical programme adding to the pleasure of the evening.

When a fashionable lady was in full dress for a ball it seemed to her unsophisticated little brother that if her dress should be drawn up toward the neck about six inches it would be a great improvement. He went to the wardrobe, and, bringing a shawl, presented it to her. "What's that for?" she asked. "Why, its for you to put on," said the enfant terrible. "For me to put on? Why, I'm all dressed. Don't I look pretty?" "Oh, yes," blurted out the little observer as he looked at her bare shoulders, "but you had better put on the shawl, for, sister, somebody might see you, you know."

A PLEASANT GATHERING.

The average age of these ladies was 68 years, the oldest being Mrs. Skinner (mother of Mrs. Wm. Wadhams), who has reached her seventy-fifth year. All the ladies were in good health and spirits. An elegant lunch was fully discussed, and the day closed with hearty expressions for many recurrences of the occasion.

THE CITIZENS' COMMITTEE.

Address to the Electors of the City of Portland.

In response to the call of a large number of the citizens of Portland, we have selected after careful deliberation the names of persons to be submitted as candidates for your suffrages in the existing election. We have endeavored to discharge this trust in the spirit in which it has been submitted to us, looking only to the general object of securing good government for the city.

It may be well to state here some of the principal reasons which seem to render this citizens' movement desirable, and which should commend it to voters of all classes, without regard to party. By the amendments to the charter, secured by partisan managers at the last session of the legislature, the terms of office were much extended and powers were conferred on the common council to perpetuate the tenure of its members. We have now no [illegible] of this in the case of some officer from the [illegible] ward, chosen by the common council to fill a vacancy, who is given by the charter the right to hold till next January, though the people are called on to elect his successor now, who is not [illegible] required to qualify within five days after his election. The powers of the mayor are also greatly curtailed by the amended charter. The instrument [illegible] his duty, with [illegible] of a majority of the council, to appoint all the officers of the police, and to make regulations for them; [illegible] not to [illegible] suspend any member of the police, including chief and [illegible], except the [illegible], police judge, city attorney [illegible] superintendent.

Those who secured these amendments of the charter, in their anxiety to get more complete control of the city government, abolished the office of assessor, and made the [illegible] only through the assessment of the county, [illegible] completely [illegible] and further, in pursuit of [illegible] get every office and department under [illegible], so that their power would not be [illegible] next three years, they prohibited the [illegible] from making any [illegible] to disturb [illegible]. These changes in the charter were not asked [illegible] by the citizens of Portland. On the contrary, they made a vigorous protest against them. To this protest no attention whatever was paid by those who had resolved to amend the charter with the object of securing for themselves the full possession of the city government.

It now devolves on you, as citizens and electors of the city of Portland, to say whether those purposes shall be permitted to succeed or not. The powers so largely extended by the amended charter, it seems to us, ought to be lodged in safe hands. It would seem to be very far from good judgment to allow the scheme so cunningly devised and so tenaciously pursued to gain the triumph to which its authors have looked through the coming election. Your city government ought to be kept out of such hands. This is no political or party matter. It is purely a question of securing good government which shall be administered in the interest of the city, and not in the interest of those who seek to control and manage its affairs for their own gain. We have given you candidates who will, if elected, carry out, as we believe, the purposes of the call under which we have acted. Your co-operation will secure their election.

GOD'S GREAT GIFT.

The Interest manifested over the Hallenbeck Revival Meetings in this City—Friday Noon Meeting at the Y. M. C. A. Hall.

At the noon meeting to-day, at least [illegible] persons were present. The scripture lesson was the fifth chapter of Mark's gospel, which contains the account of the cure of the woman who secretly touched the hem of Christ's garment, the raising of Jairus' daughter, and the case of the demoniac. Said Mr. Hallenbeck, these three persons were in a desperate strait. They could do nothing for themselves. They came to Jesus and trusted Him, and that was enough. Christ was able to heal to-day all sin's disease and to save souls from the death of sin. If we want power with God and man we must forget self and trust only in Christ. He only has power. There must be importunity in prayer. There must be [illegible] simply [illegible] seeking and knocking at the door of God's mercy.

The experience meeting which followed was one of interest and power. The large audience was deeply moved and the hour closed, to the surprise of all, as it had seemed but a few minutes—so deep was the absorbing interest.

[illegible]

Each day, immediately following the noon meeting, a ladies' prayer meeting is held for half an hour [illegible]. We learn that these half hour meetings are intensely interesting. The [illegible] attendance is daily increasing, and the prayers of these mothers, wives and sisters for their dear ones is regarded as a very important factor in the success of the meetings.

Rev. [illegible] Gray led in prayer. An invitation to sinners to submit to God's love and be reconciled to him was responded to by about fifty persons.

The inquiry meeting was pervaded by deep earnestness, and the Christian workers were greatly encouraged. Mr. Hallenbeck's labors [illegible] the [illegible] of the churches and the people [illegible] very many. For to-morrow the evening meeting on Sunday evening he will relate his experience in the Taylor street M. E. church.

Regular noon prayer meeting to-day at 12 o'clock for one hour, after which the ladies' prayer meeting will be held for 30 minutes.

The prospects for the establishment of an orphan's home at Hood river are good.

For the week ending June 12th, 382 passengers arrived at The Dalles on the company's boat.

Ochoco and Bridge creek valleys will have by far the largest harvest ever raised in that locality.

Work has been commenced on the East Chance arastra, and it will be grinding up rich ore in about two weeks.

Daniel Donahue died in the county hospital at The Dalles, of dropsy. It is thought that he lived in Monterey, Cal., and left a family there. He was about 50 years old and was a native of Ireland.

The Willow creek region was visited last Friday with a hail storm that for a time threatened to tear up things generally. The hail stones were the size of walnuts, and fell in such profusion that, with the accompanying rain, the whole section of country was in twenty minutes covered with water to the depth of three inches, and the hail was washed from the side hills into the creek [illegible]. The rodeo boys were in the midst of it and many of the cattle stampeded, but by careful herding nearly all were recovered. No particular damage was done, and it may result in a deal of good, as before the storm the ground was covered with grasshoppers, but none were seen after it had subsided.

Western Oregon.

There are 84 school districts in Linn county, 87 of which are entitled to school money this year.

The annual camp meeting of the Christian church is in progress at Dallas. It will continue over Sunday, the 26th inst.

The wife of Hon. Luther Elkins, long a resident of Linn county, died at her home in Lebanon on the 11th inst., aged seventy-five years.

The son of Abe Nelson, near Independence, who was severely injured by falling under a roller in the field a few days ago, died from the effects of the accident.

The price of wool has advanced to twenty-six cents in the Salem market. A sale is recorded on Thursday at 26½ cents per pound. In Albany it is 27½ cents, holders obtaining that price in cash.

Diphtheria has reappeared with fatal results in Corvallis. Two children of Mr. Marston, of that place, died within a few hours of each other last week, and a third child is now sick with small hope of recovery.

The posters are out for the Linn county fair, which takes place on September 27th, 28th, 29th, 30th, and October 1st. Eight thousand dollars are offered in premiums, and the list is an unusually attractive one.

The Indian school buildings at Forest Grove have been ornamented with rustic lumber and paint, the fences with whitewash. They present a very fine appearance set off against the green of the fir forest background.

As soon as it is definitely known where the narrow gauge railroad will cross the Dallas and Corvallis road, J. J. Williams of the former town, will build a warehouse at that place with cleaners, etc., sufficient to take care of all the grain to be shipped. This will be a great convenience to the farmers of that section, and it is to be hoped that the matter will be settled at an early day, so that work may proceed and the farmers be enabled to make all necessary arrangements for storage before harvest.

Democrat: Ever since the narrow gauge folks got into the forks with their railroad they have had trouble with the turbulent Santiam. Last winter the bridges went away on both forks, since which time a trestle bridge has been thrown across the north fork, and trestle work was built across the south fork preparatory to the construction of a bridge there. Last Sabbath night the river got on another bust and washed out the trestle work on the south fork, and also took away considerable lumber.

Washington Territory.

According to the decision of Judge Wingard, Cheney is the county seat of Spokan county.

An Indian while fishing with a seine near the coal wharf at Seattle a few days ago, caught a halibut which weighed when dressed 118 pounds. These fish are seldom found in shallow water, but are generally caught in the deepest waters of the sound.

On Saturday last, Sheriff Thompson, of Walla Walla county, sold at public auction, animals and equipments belonging to the so-called kingdom of heaven. The sale netted some $1700. Another levy will have to be made to satisfy the judgments against this pretentious body.

Several days ago Capt. Johnson, who arrived at Port Blakely from San Francisco to take command of the new schooner *Maria E. Smith*, was taken to Seattle for medical treatment. An examination demonstrated that he had a mild type of smallpox. He was at once sent to the pest house.

A little girl some three or four years old, daughter of Martin Thompson, at the Falls, was drowned on the White Salmon on Monday. She fell in the water while at play, and the body had not been found at last accounts. The father was absent from home, and the blow is a heavy one for the poor mother.

Chas. Evans, who had his legs crushed some time since while coupling cars, had his left leg amputated the second time. Dr. Blalock performed the operation at Ainsworth, and reports the sufferer doing as well as could be expected. Although suffering severely from the accident and first amputation, Mr. Evans bore the operation with great fortitude.

The city council of Goldendale has promulgated the following: Whereas, that dreadful scourge, diphtheria, has again appeared in our city, and is contagious, parents are requested to keep their children off the streets and at home, and it is advised that schools, churches and other public assemblies should be suspended until the disease and the dangers arising from such assembling have passed.

Intelligencer: The steamer Gem has just returned from a trip up the Nootsack river, which she ascended twelve miles higher than any other steamer had ever been, and reaching a point within three miles of the British line. The farmers along the river threw up their hats with joy at sight of the pioneer steamer, and their wives showed their appreciation of the event by gaily decorating the steamer's cabin with flowers and loading Captain [illegible] with floral offerings. The Gem brought 300,000 hazel hoops for the Eagle Mill Company, besides a lot of wool to be shipped below.

A *Halsey* correspondent says: W. W. Francis has returned. He came into Lebanon early yesterday morning and was brought home from there by friends. He reports himself as having been abducted by unknown parties and taken to the mountains, and tells a heart-rending story of privations and hardships endured through lack of food and shelter. There is a doubt in the minds of some of his friends as to his sanity, some of them even doubt the statement he makes of his trip to the mountains. However, the affair is still shrouded in mystery and the average mind is filled with conjecture as to a motive for so strange a proceeding.

POOR HORSES.

To the Editor of the Oregonian:

It is painful for anyone who has sympathy for dumb animals to see the horses that are driven into Portland daily. Some of the express wagons are drawn by pitifully poor horses, some of which look as if they are scarcely strong enough to pull the empty wagon. I have noticed numbers of teams driven by farmers (who should be the last to have poor horses) that are positively a disgrace to the persons who keep them. I think the man who both overworks and half starves his horses should be punished just as much as the man who is guilty of any other kind of cruelty to animals.

HAVANA, June 17.—President Morrillo of Santo Domingo, now dictator, says every citizen attempting to disturb the actual order of political institutions legally established, shall be tried by court martial as a conspirator; also that every citizen apprehended with arms in his hands shall be condemned to death after identification and proof of guilt.

Agricultural Department Estimates Verified.

The *Commercial Bulletin* compares statistics of the department of agriculture on the wheat crop for 1879 and 1880 with census statistics just issued. The latter shows a yield last year in California of 28,783,132 bushels against 45,760,000 bushels estimated by the department of agriculture, and in Oregon, 7,486,493 bushels against 12,920,000, estimated by the department. The *Bulletin* adds: The discrepancies between the statistics, however, appear to offset each other and leave an aggregate result closely agreeing with the census returns. The total yield of wheat in the western states, reported by the census, is 372,500,000 bushels, while the department's report on an average for 1880 and 1879, give 371,300,000 bushels. On the whole the department reports, while liable to important errors in the case of separate states, may be trusted for their accuracy in large aggregates of states.

WICKED FOR CLERGYMEN.

"I believe it to be all wrong and even wicked for clergyman or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article is made up of commonly valuable remedies known to all and that all physicians use and trust in daily, we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."

THE CITY ELECTION.

PORTLAND, June 17, 1881.

To the Editor of The Oregonian:

Believing in the right of every citizen who appreciates and understands his duties as a voter irrespective of wealth or property interest, to use his privilege with judgment in the choice of men to fill the public offices either in local or state affairs, and recognizing the fact that the election of men to those positions who may be incompetent, selfish, greedy or narrow-minded as regards the rights of every class of citizens will mar the future prosperity of this city, as well as seriously interfere directly or indirectly with the prosperity of every individual who has determined to permanently locate here, I take the liberty of intruding on your space in order to point out two large number of voters why they should vote and all cast their votes for what is known as the "citizens' ticket."

In the first place, the nominations were made irrespective of partisanship, both parties being equally interested.

Secondly, the men chosen are deemed by all who know them to be thoroughly competent, and who in sacrificing their time and accepting the nomination have been actuated by the presence of disinterested citizens whose knowledge of them gives assurance of honest administration and independent of rings or cliques.

Thirdly, no government, local, state or national, can be honestly or impartially administered if the men elected to all public positions are governed by narrow-minded or prejudiced opinions regarding the rights of any other class of citizens. This republic is formed of almost every nationality, sect and religion, and so long as the principles of our government are respected and the loyalty of all citizens of every citizen is given in obeying or upholding the laws, so long should their rights and privileges be recognized and respected. Any attempt to abridge those rights or in any way to discriminate for the purpose of engendering and encouraging sectional or religious intolerance, is contrary to the spirit of our institutions, and should be crushed out completely by the vote of every well-wisher of the future peace and prosperity of this country. That such a spirit of intolerance exists in our midst is proved beyond a doubt. Our present city government is thoroughly impregnated with it and is composed (both counsel and officers) of the leading spirits of the organization known as "Meridian," or "Knights Commanders of the Sun,"—miscalled "Sons of Liberty." Some even go so far as to accuse D. P. Thompson of being a member, but there is positive proof that he is not, nor ever was.

Every man named on the citizens' ticket is just as clear of such objections. The other ticket has the "Meridian" so plainly visible through the names connected with it that its election on Monday next would be the establishment in this fair city of the curse of intolerance.

In conclusion, I wish to draw the attention of workingmen to the fact that apart from any failings that D. P. Thompson may have, he has proved himself the friend of the workingman as against Chinamen.

His action as mayor has been on all occasions opposed to sanctioning contractors employing Chinamen. As witness thereof a contractor hands me the following, received March 13, 1880:

Sir—You are hereby informed that should you employ Chinamen to perform the work under your contract on the streets of this city, I will not sign the warrants for work so performed.

D. P. THOMPSON, mayor.

I present the foregoing facts for the consideration of my fellow citizens and am prepared to vouch for every statement made. Let their judgment be guided in accordance in the choice of men to govern this city on Monday next.

R. D. PITT.

GRAND JURY REPORT.

Having Completed its Duties in the State Circuit Court, this Body Submit a Report and is Discharged for the Term.

Yesterday afternoon the grand jury of the state circuit court submitted the following report:

The grand jury empanneled and sworn at and for the May term 1881, beg leave to report that we have examined into all crimes committed or triable within this county that have come to our knowledge or notice, and have disposed of the same to the best of our ability and with all the dispatch consonant with the importance of our duties. We have found and returned into court thirty-six true bills of indictment, and have examined a large amount of other business together with reporting into court thirteen not true bills. Some of those cases in which not true bills have been reported, were cases involving questions of great interest to the public, and have involved long and tedious investigations, but which, in our opinion, the interest and safety of the public required to be carefully made.

We have, as required by the statute, visited and examined into the condition and management of every public office in the county, and in reference to the city jail, while we recognize that its management is more particularly within the jurisdiction of the city authorities, we think it not improper to suggest that great damage is being done to the building by reason of the flowing of the water thereon from the building on the north side of, and adjoining the city jail, by reason of which the north wall of the jail is kept in a very damp condition, causing the plastering to fall off, and in addition thereto rendering the occupation of the building unhealthy.

We also think that a better system of sewerage about the building might be adopted, and that the flooring and probably the sills under the offices on the lower floor, ought to be replaced by new material. We find that a portion of the roof is in a leaky and leaky condition, that its repair is greatly needed, and that the halls and offices on the ground floor ought to be repainted.

We find the city jail to be well managed and kept, and found the officers thereof polite and attentive.

We find the county jail well managed and conducted, but are of the opinion that the same ought to be rendered more secure by lining the walls and ceiling thereof with boiler iron, or some such material.

We find the offices pertaining to the courts of justice in the county to be, so far as we have been able to ascertain, well conducted and the laws faithfully observed and administered and the records thereof well and intelligently kept.

The grand jury also visited the hospital for the insane and find the management and care in that hospital to be, in every sense of the word, highly creditable. The grand jury are gratified to be able to learn here that the very excellent management and treatment of that unfortunate class of people, inaugurated and so long practiced by the late lamented Dr. Hawthorne, has been pursued and continued by his successors.

With reference to the county hospital we think the same, under the management of the present superintendent, well kept and its affairs economically and faithfully administered and the books and records intelligently kept, but the grand jury would respectfully suggest that, in the absence of the superintendent, persons having business and duties to perform at the hospital are entitled to more civil treatment than the grand jury received at the hands of the person holding the position of clerk of that institution.

D. L. PRETTYMAN, Foreman.

THE BOSTON WOOL MARKET.

A Very Active Week—Sales at Very Full Prices.

BOSTON, June 17.—This has been another active week in the wool market. Prices are firmer with an upward tendency. Transactions have been 2,891,000 pounds, of all kinds almost exclusively domestic wool. Ohio and Pennsylvania fleeces ranged from 41@42c for X and XX, and some choice lots of the latter held at 45c. Michigan and Wisconsin X fleeces have been sold at 40c. For some new Michigan just in this price has been offered and refused. Unwashed fleeces have been in demand, with sales at 26@32c for fine, and [illegible] for medium, including Connecticut, West Virginia and Georgia. Transactions in California are again very large and sales of all kinds have been [illegible] lbs. New spring has been sold at [illegible], the selling some choice clips at [illegible]. Scoured wool has been sought after [illegible] has been sold at various prices. Pulled wool continues in demand, prices steady and firm. Principal transactions have been at [illegible] with some choice supers at [illegible]. A lot of [illegible] which has been sold at [illegible] for some time. Some Australian was sold at [illegible]. Carpet wools command full prices.

The European Wheat Crops.

NEW YORK, June 17.—A writer in the [illegible] *Bulletin*, which the [illegible] of the highest respectability, [illegible] paper: In some newspapers [illegible] the wheat crop in France [illegible] by floods [illegible] Paris, Marseilles and Bordeaux, and [illegible] from each firm [illegible]. The crops all over France [illegible] Odessa, [illegible] prominent grain [illegible] have letters and [illegible] the following is a specimen: "Russia will have a crop this year better than in the last 20 years, and Europe will be entirely independent of American wheat. Russia will not only have [illegible] supply the whole export wants of Europe [illegible] spare [illegible]. I have received from [illegible] Pesth, Vienna, Munich, Stettin, [illegible] splendid crops. Now in view [illegible] any sensible man [illegible]. The advance [illegible] who will suffer from [illegible]. The [illegible] for export at say $1 20 will be selling for export in one or two months [illegible] amounts to nothing, except [illegible] steamers that arrive [illegible] have to take wheat at very low rates, [illegible] shippers to pay present [illegible]."

Review of the San Francisco Wheat Market.

SAN FRANCISCO, June 17.—The *Commercial News*, in a weekly review of the freight market, says: The most notable occurrences in the freight market during the week have been the increase in tonnage reported bound here and the charter of the last disengaged vessel in port leaving the harbor for the third or fourth time this season bare of tonnage suitable for wheat. Advices by Australian steamer report a decline in freight there and in Manila. This if permanent, will tend to increase the tonnage coming here from that quarter. The spot market during the week has been firm, there being nothing left to work on. Quotations are nominal at last rates paid. A vessel came to hand yesterday under charter at a low rate and the fleet she is anxiously looked for. Harvesting operations are general and the yield is better and larger than expected. Some new wheat has already been shipped on vessels now loading, and it will be impossible this year to tell where the old crop leaves off and the new begins. Before July 1st there will be considerable new wheat afloat. The latest charter reported is the British bark Glen Huntley, 517 tons, wheat to Liverpool direct, £2 17s 6d, Cork, U. K., £3, prior to arrival.

NEW YORK FREIGHTS AND MARKETS.

NEW YORK, June 17.—Dullness continues to be the feature of the freight market via Cape Horn and the movement by that route is light, although not more so than could be expected at this season. Rates however remain steady. Railroad freights are only fairly active, although in [illegible] other considerable quantity of goods are forwarded.

In markets there are but few changes.

Wheat—Half a cent better and more active, shippers buying quite freely.

Pork—25 to 50c higher.

Lard—5c higher.

Turpentine—Speculative demand, 1½c higher.

Other articles quiet, unchanged.

Liverpool Wheat Market.

LIVERPOOL, June 17.—A leading grain circular says: Grain continues firm in most of the provincial markets. Cargoes in all positions are steadily held and rather dearer on spot. Since Tuesday there was fair business in wheat at full rates. Corn was a shade easier. In to-day's market there was average attendance and quiet feeling. For wheat there was restricted demand at unchanged rates. Flour is rather neglected. Canadian peas realized higher figures. Corn opened flat but with renewed inquiry at the close.

Short Wheat Crop Predicted.

NEW YORK, June 17.—The *Tribune* says: With the best possible weather from now to harvest time the wheat yield will fall considerably short of that of last year. The acreage sown in spring wheat fell off to 86 per cent. of that of 1880, by reason no doubt of the low price of last fall and winter, and the winter wheat yield is likely to be seriously reduced by weevil in the west and cold in California.

Liverpool Breadstuffs Market.

LIVERPOOL, June 17.—Breadstuffs quiet and steady. Receipts of wheat for the past three days, 235,000 centals, including 176,000 American.

London Wool Sales.

LONDON, June 17.—At the wool sales to-day 6500 bales were disposed of, chiefly Port Phillip and New Zealand. The demand is good at full prices.
